How to find the right ring size

Print out this size guide. Place a ring you already own, in your desired size, on the sheet. Find the circle that most closely matches the correct size – the internal measurement.

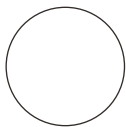

in mind that temperature also affects finger size. When warm, fingers may swell, so base your measurement on normal room temperature and how you know your own comfort.

Please note that the ring size may vary depending on the design. If the ring is wide, it is recommended to choose one size larger. Keep

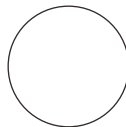

To ensure that the measurements on the sheet are accurate, check that the line below is 50 mm long.
